Prior Coordination Notification/New Paths
Temporary Operation for Experimental Application No. 0126-EX-PL-2008
*** Expedited Response Requested by September 25, 2008 ***

Dear Frequency Coordinator:

COMSEARCH has identified you as a licensee authorized to operate in the vicinity of the system described in the attached documentation.

In accordance with FCC Rule Part 101.103(d), we are notifying you of the proposed system and providing technical parameters in the attached data sheet. With respect to this proposed system, the following is noted:

- The operation of the site will not be continuous. The operational hours will be normal business hours, 0800 to 1700, Monday through Friday. There will be sporadic testing other than the set hours, but only on isolated instances.
- The stop buzzer contact person is a Raytheon engineer, Dave Townsend, who will be available at (972) 952-2828 in the event there are any concerns or questions regarding the experimental operation.

If you have any questions, or require additional information, please contact me at (703) 636-5234 by October 9, 2008.

Sincerely,

COMSEARCH

Dong Shin
Engineer
