

To Whom It May Concern:

This is to certify that: RCN Communications, LLC dba RCN Technologies deploys and/or manages radio frequency equipment. The RF experimentation will be conducted by following a strict Test Plan defined and approved by RCN Technologies in a controlled environment. RCN Technologies will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results. RCN Technologies has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff. For the above reasons, I believe RCN Technologies meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

A handwritten signature in black ink, appearing to read "Jameson Chatman", with a stylized, cursive script.

Jameson Chatman

Sales Engineer
