Subject: OET Experimental License Grant Notification, Call Sign: WD2XGI File Number:
0142-EX-ML-2008

Message:

I had in my application the following text:

'I would like to continue my experiments for another 5 years with some changes to my license by adding 600 meters (500-510khz). Operations will stay clear of the NDB stations at 510khz as well as any future navigation stations.'

I was wondering if there was a mistake in my current grant by not having the 500-510khz band of frequencies on that grant? I would like to run some experiments on the 500-510khz band as specified in my application if that would be possible.

Many thanks,
Michael J Reid
