Attachment to FCC Form 442

Section 7

Include a narrative statement describing in detail the following items:

- a. The complete program of research and experimentation proposed including description of equipment and theory of operation.

Technology, hardware and software and methods to improve cell performance in all networks (GSM, PCS, CDMA and iDEN).

- B. The specific objectives sought to be accomplished.

To improve and/or provide GSM network service in areas where there is currently little or no service and in buildings where the GSM signal is attenuated by the structure.

- c. How the program of experimentation has a reasonable promise of contributing to the development, extension, expansion or utilization of the radio art, or is alone line not already investigated.

The experiment deals with very low watt power as the field of investigation for improving performance.
