SUBJECT: Operational Description USSOCOM Testing and Training of Radio Frequency Systems.

1. RLM Communications, Inc. is providing The United States Special Operations Command (USSOCOM) training, science, and technology support in the areas of Special Operations Research, Development, & Acquisition Command (SORDAC) under contract number H92222-11-D-0009.
2. RLM will be providing training documentation, technical writers, training specialists, electronic technicians and other media support professionals in the Design Testing (DT), Operational Testing (OT) and new equipment training (NET) for a family of electronic systems which encompass radio and television spectrum. The delivery of systems to the end users will each undergo testing, training, and User Acceptance Testing (UAT).

The testing and training activities will take place at RLM Communications, Inc at 1027 East Manchester Road. These activities will occur many times per year at the customer's request.

The nature of the activity will include erecting the antenna system, startup up the transmitter and transmitting into a dummy load and into the radiating antenna(s) when available.

3. The systems being developed, tested, and delivered will span a period of three to five years which includes configuration management, potential system upgrades, testing, evaluation, and delivery requirements including testing and training.
4. The designated contacts for immediate and emergency transmitter termination are the following:
 - a. Christopher Ray (PRIMARY)
 - i. OFFICE and TESTING LOCATION (910) 223-1350
 - ii. MOBILE (910)-624-9419
 - iii. 1027 East Manchester Road, Spring Lake, NC 28376
 - b. John Griffith III (SECONDARY)
 - i. OFFICE and TESTING LOCATION (910) 223-1350
 - ii. MOBILE (910) 574-4706
 - iii. 1027 East Manchester Road, Spring Lake, NC 28390
