Subject: FCC file number 0371-EX-PL-2008

Message:

Mr. Ken Martin,

NASA would like an answer to the following questions before they make a decision.

- 1) Are the proposed operations air-to-ground, ground-to-air, or bi-directional?
- 2) We note a number of antennas are potentially going to be used, but is there any idea of the potential ranges for directionality and/or gain?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 27, 2009 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
