ingdingsCGKADF+WingdingsVersion

2.50CGKADF+WingdingsThe Windows logo is

a trademark of Microsoft

Corporation. Microsoft Typography Kris

Holmes and Charles BigelowThe Wingdings

fonts were designed by Kris Holmes and

Charles Bigelow in

1990 and 1991. The fonts were

originally named Lucida Icons, Arrows,

and Stars to complement the Lucida text

font family by the same designers.

Renamed, reorganized, and released in

1992 as Microsoft Wingdings(TM), the

three fonts provide a harmoniously

designed set of icons representing the

common components of personal computer

systems and the elements of graphical

user interfaces. There are icons for

PC, monitor, keyboard, mouse,

trackball, hard drive, diskette, tape

cassette, printer, fax, etc., as well

as icons for file folders, documents,

mail, mailboxes, windows, clipboard,

and wastebasket. In addition, Wingdings

includes icons with both traditional

and computer significance, such as

writing tools and hands, reading

glasses, clipping scissors, bell, bomb,

check boxes, as well as more

traditional images such as weather

signs, religious symbols, astrological

signs, encircled numerals, a selection

of ampersands and interrobangs, plus

elegant flowers and flourishes.

Pointing and indicating are frequent

functions in graphical interfaces, so

in addition to a wide selection of

pointing hands, the Wingdings fonts

also offer arrows in careful gradations

of weight and different directions and

styles. For variety and impact as

bullets, asterisks, and ornaments,

Wingdings also offers a varied set of

geometric circles, squares, polygons,

targets, and

stars. [http://www.microsoft.com/truetype/](http://www.microsoft.com/truetype/fonts/wingdings/)
