Date: December 14, 2018

Subject: 0965-EX-CN-2018

Message:

Mr. Ghaffari,

In the process of requesting FAA coordination, the FAA informed us that channel 2 in that frequency range is only 205 MHz wide. Please reduce the requested bandwidth, for that frequency only, to 205 MHz. The frequency range that was coordinated is the one in the application: 5041.06 MHz to 5041.265 MHz.

Thank you,
Courtney Miller
Counsel to Rockwell Collins
