Re: Ron Abboud
Call Sign: KI2XAD
Omaha, Nebraska
Amendment for Experimental Wireless Cable License

Dear Mr. Wright:

Ron Abboud, experimental licensee for Station KI2XAD in Omaha, Nebraska, hereby amends his experimental license to specify the polarization of the experimental equipment being utilized in Mr. Abboud's wireless cable experiment. The polarization for Station KI2XAD should be vertical.

Mr. Abboud has been operating with a vertical polarization since beginning his experimental operation in 1991. Because polarization does not appear on the FCC's experimental authorizations, Mr. Abboud believed he was operating pursuant to his authorization. Therefore, Mr. Abboud is hereby amending his authorization to reflect the vertical polarization.

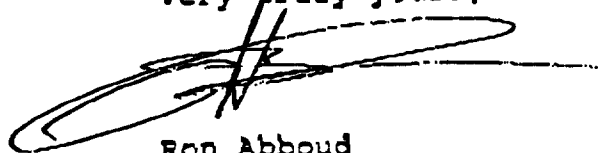

Mr. Abboud is also amending his experimental authorization to provide the correct coordinates for the Omaha Inn from which Mr. Abboud is operating Station KI2XAD pursuant to that authorization. Mr. Abboud has had the coordinates verified with a U.S. Geographical Survey Map and the coordinates for the Omaha Inn are 41-12-33N and 96-04-49W. Mr. Abboud hereby requests that his experimental authorization for Station KI2XAD be amended accordingly. The street address for the transmitter remains the Omaha Inn.
