Enclosure Materials	UV Resistant ABS
Operating Temp.	-40 to 70 degrees Celsius

The wideband omnidirectional vertical dipole antenna is enclosed in a UV-resistant PVC radome and does not require any field tuning or adjustments over the entire UHF TV band. The antenna uses brass and aluminum alloy in its construction and the compact size of the antenna allows for easy handling and shipping.

The F-Female termination of the antenna is fixed at the bottom of the mounting pipe for complete weather protection. The cylindrical enclosure provides for minimal wind loading and ice formation as well as providing an aesthetically pleasing appearance. Stainless steel mounting brackets are provided.
