---

Message:

I have a current contract that will have some outdoor experimentation but it is not for the full time period that I applied for. The other contract was supposed to start May 1st but keeps getting delayed in red-tape. There was talk of a June 1st start time but that does not seem likely in just a little less than 3 weeks.

The Air Force contract number is

Phase 2 SBIR Contract #FA8650-13-C-1507
