From: Ken Lashbrook, Associate Air Quality Specialist
Sacramento Metropolitan Air Quality Management District

Subject: Request Fee Exemption for Experimental Station WA2XAP

The Sacramento Metropolitan Air Quality Management District (SMAQMD) is a special district established to monitor and improve the air quality within the Sacramento County. The 10 governing board members are elected representatives from the County and the various city councils.

SMAQMD requests a fee exemption for the experimental station WA2XAP because it qualifies as a governmental entity as described in 47CFR1.1114f.
