

To: John Kopf
E-Mail: Kopf@telephonics.com
From: Jose Trevino
Date: October 20, 2011

Subject: FCC file number 0521-EX-PL-2011

Message:

Mr. John Kopf,

Please verify the frequency of 9.4 MHz along with the emission designators requested in the 9.4 MHz.

Please provide the description of the operation to be conducted and its purpose in more details. For example, having the emission designator of 178MQ3N, how will this work by using the frequency 9.4 MHz. What are the sidebands on the frequency?

Please provide a designated point-of-contact to terminate transmissions if interference occurs.

Also, authorizations longer than a regular two-year license require a justification. Please justify the need for a five-year license, or would you prefer only a two-year license.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of October 20, 2011 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
