Subject: Request for Info - STA File #0084-EX-ST-2016

Message:

The original STA for this station was extended once already. STAs are supposed to be temporary in nature. How much longer will testing go on? If you anticipate testing for more than another six months, then you should re-file for a regular experimental license on Form 442 on the Experimental Licensing System's electronic filing site. If you affirm that testing will conclude within the next six months, we will extend your STA this time. Further extensions would have to be very well justified.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of January 20, 2016 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
