Experimental Licensing Branch
45 L Street, N.E.
Washington, D.C. 20554

May 14, 2026

Attn: Chance Tarver
Samsung Research America
6105 Tennyson Pkwy
Plano, TX 75024

DISMISSED-WITHOUT PREJUDICE

Dear Chance Tarver,

This refers to application, File No. 0226-EX-CN-2026, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. Samsung Research America proposes to use TV Broadcast Auxiliary and Fixed Microwave Service frequencies to perform the tests in very crowded areas at a very high-power level compared to that used by FM and TV Broadcast Auxiliary Service operations. Currently, there are numerous licensees operating in the same frequencies within close proximity of the proposed locations. The potential for harmful interference to the services in Broadband Division is very high. Therefore, this application is dismissed.

Responses to this correspondence must contain the Reference number : 102139

Sincerely,

Sean Yun
Acting Branch Chief and Deputy Chief
Electromagnetic Compatibility Division
