

February 25, 2019

To Whom It May Concern,

This is to certify that:

San Diego Unified Port District (SDPUPD) deploys and manages radio frequency (RF) equipment.

The RF experimentation will be conducted by following a strict Test Plan defined and approved by SDUPD in a controlled environment.

SDUPD will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

SDUPD has RF experience and supports RF data networks with in-house Information Technology staff and through oversight of contracted service providers.

For the above reasons, I believe SDUPD meets eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely

Kurt Smith
