

San Joaquin Valley Unified Air Pollution Control District

Thursday, August 28, 1997

Doug Young, Engineer
Experimental Licensing Branch
Federal Communications Commission
2000 "M" St. NW, Suite #230
District of Columbia, 20554

Subject: Air Profiler license

Dear Mr. Young:

Attached please find form 442 for our application for an upper-air radar profiler. I trust the form is properly filled out. Should there be any item that is incorrect or missing, please call me at (209) 497-1081, or fax me at (209) 233-0140, and I will promptly correct it. As a governmental agency, I understand the District is exempt from application and license fees.

We are required to install this profiler under the Federal Clean Air Act of 1990 and its amendments. Numerous air pollution control agencies nationwide have already installed these profilers. In California alone your branch has granted licenses for one or more of the same profiler to agencies such as the California Air Resources Board, Sacramento Metro Air Quality Management District (AQMD), Ventura County Air Pollution Control District (APCD), South Coast AQMD, and San Diego APCD.

Your assistance on this application is greatly appreciated.

Sincerely,

Scott Scheller
Senior Air Quality Instrument Technician

Enclosure
