
10/3/17

To Whom It May Concern:

This is to certify that:

SBA Communications deploys and/or manages radio frequency equipment.

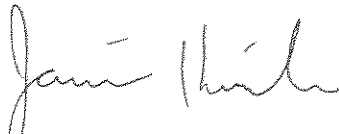

The RF experimentation will be conducted by following a strict Test Plan defined and approved by SBA Communications in a controlled environment.

SBA Communications will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

SBA Communications has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe SBA Communications meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jamie Kimble".

Jamie Kimble

SBA Communications

Director, Technology Research
