

REASONING FOR THE FEE EXEMPTION STATUS WE HAVE CLAIMED.

I am exempt from fees because I am experimenting on a project that will never earn any profit to me or my crew. This is strictly volunteer. We will be bettering the POLICE/FIRE/EMS departments for Armstrong Indiana and Butler Counties better stay in constant communications. I am doing this work free of charge because as a member of some of these departments I wish to. All 911 operators that get a call and cannot reach someone to respond can be faced with a deadly situation. I hope you understand. My work will bring western PA into a new age of telecommunication. Without my need for fees and profit.
\

thankyou,

P.S. My research has so far gone unfunded. Perhaps you nice people at the FCC will grant me funds for my wonderful research. In the end it will help all of mankind.
