

JUSTIFICATION FOR CONFIDENTIALITY

Individual Force Protection System (IFPS) Generation I / Generation II Research and Development Program

The DARPA Security Classification Guide for the IFPS Gen I / II Program provides security guidance and information release guidance. Per the classification guide, technical parameters are For Official Use Only (FOUO). Certain performance and vulnerability information is classified up to Top Secret.

In addition, the DARPA Security Classification Guide requires that the public release of any information about the IFPS program must be first approved by DARPA.

In addition, certain IFPS technical information is proprietary and should not be released without first obtaining permission from SAIC.
