Subject: SAIC Sta file number 0685-EX-ST-2004
 Carl,

The following information is submitted to complete the SAIC STA application file number 0685-EX-ST-2004 as submitted.

Frequencies Requested for test; VHF 65MHz and 80MHz, UHF 235 MHz and 255 MHz.

Should there be a conflict for the requested frequencies we can use any two frequencies in each band provided they are separated by 15 MHz. Please feel free to recommend frequencies where there will be no conflict. The PRC 117F VHF band is Lo 30.000 to 89.99999 MHz, Hi 90.000 to 224.99999 and the UHF band is 225 MHz to 400 MHz. Again we will gratefully accept suggestions where you may see a conflict.

Power (ERP): VHF 8dBW, UHF 18dBW

Emission Designator: 25KOOF1E

Location for Test Site: 37deg 52 min 26 sec North / 78 deg 41 min 02 sec West

Should you have other questions or see where we could have a conflict please do not hesitate to call me at the numbers listed below.

Thanks for your assistance
