Subject: FCC File No. 0007-EX-PL-2007

---

Message:

The other license that you have referenced, i.e. Illinois, The board of Trustees of the University Office is from the University of Illinois (Dr. Edwin Herricks) is for the same project, but for a separate (mobile) radar unit. That radar is in addition to the radar we now have constructed and are ready to turn on. The mobile unit will be used to work around the airport to collect bird data from the gaps that cannot be sampled with our fixed SEA radar due to great topographic relief surrounding the airport. Dr. Herricks has been notified of our filing and also of your inquiries. We would appreciate a grant of our request as soon as possible. Thank you.
