Locations (latitude/longitude):

43-6-41 North, 76-0-12 West

Description of the operation to be conducted:

Sensis will be developing a prototype signal processor back-end as an option to upgrade the AN/SPS-49 ship borne radar system for NSWC (Naval Surface Warfare Center) Crane Division. As part of this contract, Sensis will need to integrate and test the entire system to verify performance improvements and system functionality.

The military contract number:

N00164-10-G-QN10

Agency and a military point-of-contact, (name and phone number).

Howard James

Sensor Division (GXR)

Naval Surface Warfare Center Crane Division
