

FCC Form 608 Exhibit 1 Page 1 of 2

Service: When operating, the service will provide secure managed access of wireless devices to the existing commercial networks of licensed CMRS operators (the “Macro Network”) in a defined geographic area, within a law enforcement and/or public safety agency facility, to stop the unlawful use of contraband devices by inmate/offenders housed in a correctional facility (prison, jail, detention center, etc.). The C5 system operates within the “call set-up” layer of the wireless infrastructure to authenticate permitted devices for completion of the “calls” (voice, text, SMS or data), by the Macro Networks, while capturing and holding unauthorized devices at “call set-up” / authentication and disallowing the completion of the calls to the Macro Network.

Scope of Spectrum Usage Rights: The spectrum usage rights will be utilized by Lessee as a Private Mobile Radio Service (“PMRS”) to manage access to the Commercial Mobile Radio Service (“CMRS”) within the scope of the spectrum usage rights as defined herein. Lessee shall operate the leased spectrum as a PMRS operator in compliance with the communication laws or any other applicable law as if it is solely responsible for such compliance.

Operation Area

Moshannon Valley Correctional Center, 555 GEO Drive, Philipsburg, PA, USA

POINT	LAT	LON
Point 1	40-55-22-00N	78-14-36-38W
Point 2	40-55-17-33N	78-14-23-49W
Point 3	40-55-8-42N	78-14-29-21W
Point 4	40-55-13-08N	78-14-41-88W
Point 5	40-55-22-00N	78-14-36-38W
Radius	0.30 km	
Sea Level	+1555 ft	

The following maps show the geographic (corner) coordinates associated with the GSA within which the Service will operate. The GSA is contained wholly within this defined area and is confined to the outer perimeter. The Service will be configured to operate only within the outer boundaries of the GSA so defined.
