Subject: Request for Info - File # 1070-EX-ST-2020

Message:

Please provide further information regarding the following:

1. Justification for using a very wide frequency range of Educational Broadband Service and Broadband Radio Service from 2502 MHz to 2690 MHz. Any specific reasons not to choose the other bands instead of EBS and BRS?.
2. Why ShawnTech proposes to operate in Advanced Wireless Service frequency bands?
3. Detailed prescriptions of the proposed operation?
4. How to avoid harmful interference to other services , especially AWS and EBS/BRS operations.
5. Any stop buzzer information just in case interference occurs?.
6. How come ShawnTech requests almost a whole year, 2/19/20-12/1/20, for an STA request?. We are currently in the middle of the year of 2020 already.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 21, 2020 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
