Subject: Request for Info - File # 1130-EX-ST-2020

Message:

Lat: 44° 3'46.15"N
Lon:103°11'13.30"W
Radius: .03km

Instructions indicate:

"If fixed, enter the geographical coordinates exact to the nearest second. If mobile or base and mobile, enter either the area of operation or the fixed/center coordinates and the radius of operation"

As a mobile unit we provided the area of operation as indicated. For future applications do we need to provide the area of operation AND the fixed/center coordinates and the radius of operation?
