Subject: Request for Info - File # 1131-EX-ST-2020

Message:

Lat: 42°54'54.41"N
Lon: 97°24'7.15"W
Radius: .35km

The instructions indicate:

"If fixed, enter the geographical coordinates exact to the nearest second. If mobile or base and mobile, enter either the area of operation or the fixed/center coordinates and the radius of operation"

As a mobile operation we entered the area of operation as indicated. For future applications do we need to enter the area of operations AND the fixed/center coordinates and the radius of operation?
