From: John Kennedy
Date: April 24, 2007

Subject: FCC File # 0626-EX-PL-2006

Message:

Mr. Mark Johnson,

First, enter the complete emission designator (the necessary bandwidth AND the three alphanumeric emission symbols as described in 47 CFR, Part 2.201) for each frequency requested.

Second, report each city requested in Exhibit 1 as a separate Antenna in the application each with its own latitude and longitude (center point) and radius in kilometers if the transmitters will be placed in temporary fixed locations (transportable). The center point does not have to be the center of the city but may be on a shore, port or beach (but not in the water) within the city.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of April 24, 2007 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
