

SHIPCOM WLO APPLICATION

(File: 0005769100)

Demonstration and training relative to Land Mobile Waiver & Maritime Services

All frequencies requested are currently licensed to Shipcom, WLO
including USB assigned 9.064 (carrier 9.0626)

The purpose of the application is to allow testing, demonstration and training communications
with the land based unites in the Continental USA area related to Land Mobile and Maritime services

Waiver DA 10-831 permits testing and training with customers.

The purpose of this license is to permit testing, development and internal staff training while
communicating with Shipcom provided and operated test stations and not for any specific customer.

Such use will be limited to periods not exceeding one (1) hour.
