

Exhibit A

Siemens Stromberg-Carlson is a developer and manufacturer of a PCS 1900 system. Siemens Stromberg-Carlson is currently working with several customers to provide equipments that will give the customers a working PCS 1900 product. In order to provide quality products to the customers, it is essential for Siemens Stromber-Carlson to test all necessary interfaces and features. Therefore, obtaining a FCC radio license is necessary for Siemens Stromberg-Carlson.
