Subject: FCC File No. 0325-EX-PL-2007

Message:

Thank you for your consideration in this matter. Let me try to answer your questions as follows?

1. Emission types: We are requesting use of emission designation: 20K0F3E
2. Latitude: 37-21-31, Longitude 121-53-47
3. Radius of operation: 20 miles.
4. Supporting documentation.

Our company is engaged in the development, manufacture and sales of interoperability switching systems for public safety and commercial communications networks. You can see our web site at www.sierraradio.net. We have delivered systems to government emergency operations centers and non-governmental organizations engaged in the disaster preparedness. As we develop, test and demonstrate our interoperable radio solutions, we need the ability to interconnect various radios from different networks. Our control systems require a main control channel pair used in a typical repeater configuration.

We would like to be licensed in the UHF band, ideally between 450 and 470 MHz. This would allow us to develop and test with the same type of radio equipment that our customers will be using.

5. Fee ? We do not see any reference to how much the filing fee is.

Thank you very much for your consideration.

Regards,
George Zafiropoulos
Sierra Radio Systems

Mr. Zafiropoulos,

Please provide the following information:

1. Please complete all emission designators (necessary bandwidths and the three alphanumeric emission symbols) for the frequency bands being requested, in accordance with CFR 47, part 2.201 and part 2.202.
2. Latitude and longitude in DD-MM-SS [item 5(c)(1)]
3. Radius of operation.
4. Attach document(s) to your application to support the need for an experimental license.
5. Processing fee.

Confirmation Number: EL407330
