Subject: FCC File No. 0336-EX-PL-2007

Message:

Hello Behnam Ghaffari,

I resubmitted 4 separate attachments to replace the original. Each attachment is for a separate cable run from the splitter. I originally just used the shortest cable run because that would have had the highest power output (-141dBm at 100 feet). The other 3 were even weaker signals. Please let us know if you need anything additional...

Confirmation Number: EL717411
Behnam.Ghaffari@fcc.gov

Please provide a detailed calculation(s) for the link budget specified on item 6 of section 8.3.28.

The attached file Signal Power Calculation does not support various elements in which your experiment will be conducted. Added 4 new attachments Repeated Signal Power - Sikorsky(1, 2, 3 and 4).

Thank you,

Richard Reap
