

Exhibit A

Pursuant to Section 5.61(b) of the FCC's rules, MSV hereby requests an experimental license to conduct the experimental operation authorized in File No. 0526-EX-ST-2006 (Call Sign WC9XRY). 47 C.F.R. § 5.61(b). As provided in Section 5.61(b), operations may continue in accordance with the terms and conditions of the previous grant of Special Temporary Authority pending disposition of this application for an experimental license. *Id.* All operations and technical parameters will remain the same as those previously approved under File No. 0526-EX-ST-2006 (Call Sign WC9XRY).

Operations pursuant to this experimental license will entail transmissions on certain specified frequencies in the L band from a fixed antenna to assess the impact on receivers operating in close proximity to the antenna. The testing program entails transmitting from the antenna on specified frequencies in the L band and measuring the effect on receivers in close proximity to the antenna. This testing will be performed during normal business hours.
