

SkyTower, Inc.
Special Temporary Authorization

LIST OF ATTACHMENTS

- 1) Notification letters for CC and OF operators in the 2 GHz band. The first page of each letter has a list of all the operators in the band. All cases clear.
- 2) A spec sheet of the Helios transmitter for the band of interest, including coordination distance.
- 3) Interference case summary sheet for both CC and OF. There is one sheet that shows 4 links not clearing. I have noted at the bottom that they clear due to frequency offset, so there are no problems there.
