Subject: FCC File # 0088-EX-ML-2006

Message:

Mr. Eric Smith,

You have reported a radius of 1900 kilometers. Is this correct, or did you interpret the radius to be the distance of propagation? Please be aware that the distance should refer to the radius of mobile operations or radius of transport of the transmitter about the reported geographical coordinates and that a more accurate distance in kilometers should be reported in your response to this correspondence. If the transmitter is fixed, then confirm that the radius of mobile or transportable operations is zero kilometers.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 26, 2007 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.

DO NOT Reply to this email by using the 'Reply' button. In order for your response to be processed expeditiously, you must upload your response via the Internet at <https://gulfoss2.fcc.gov/prod/oet/cf/els/index.cfm> by clicking on the "Reply to Correspondence" hyperlink.
