ITEM 10
of
APPLICATION FOR NEW OR MODIFIED RADIO STATION AUTHORIZATION UNDER
PART 5 OF FCC RULES EXPERIMENTAL RADIO SERVICE (OTHER THAN
BROADCAST) - FCC Form 442
submitted by
SmithKline Beecham Pharmaceutical Co.

The terminal will be used for restoration purposes of telecommunication services between the plant location in Puerto Rico and locations in the USA in the eventuality of natural disasters like earthquakes or hurricanes. Under those circumstances and due to the rural location of SB's plant, the existing communication facilities (private microwave systems and telephone company cables) may be impaired for intervals longer than those acceptable by SB to insure the safety of the company's personnel and property.
