

Southern Telecom, Inc.
Experimental License Application
Confirmation No. EL12333
File No. 0126-EX-PL-2002

Amendment as to Number of Units and Geographic Scope

Narrative Statement

The applicant herein, Southern Telecom, Inc. ("STI"), hereby amends the Experimental License Application identified above, in the following respects:

Geographic area: The Service Territory of the Southern Company in the States of Georgia, Alabama, Mississippi (south of 33 degrees latitude) and Florida (west of 83 degrees longitude).

Number of units of equipment: 1,000. STI requests authority for 1000 units in order to explore various network configurations that may occur on a typical US electric distribution grid. Moreover, STI wants to be able to test equipment from more than one vendor at the same time.
