Re: Application of Southwestern Bell Technology Resources, Inc. for
Modification of Existing Experimental Authorization, Requesting Non-
Commercial Experimental Authorization in 28 GHz and 38 GHz bands.

Transmitted herewith on behalf of Southwestern Bell Technology Resources, Inc. (SBTR) is an original and one copy of its Application for a Modified Radio Station Authorization (file no. **3037-EX-PL-92**, call sign **KM2XBI**) under Part 5 of the Commission's Rules (FCC Form 442). SBTR seeks addition of two frequency bands to the existing experimental authorization to operate communications systems in order to test and validate new systems and technologies in a non-commercial mode.

Also enclosed is a check in the amount of \$45.00 to cover the Commission's filing fee. Please return the designated copy of the application, with a stamp or notation confirming the date of receipt, in the self-addressed stamped envelope provided for this purpose.

Respectfully submitted,

John A. Moore
Director, Wireless Communications
