Date: August 18, 2017

Subject: Request for Info - File # 0449-EX-CN-2017

Message:

1. Is there a transmitting earth station associated with this project that is not already licensed? If so, then you must enter data for that as a second antenna to the application.
2. Submit an Orbital Debris Assessment Report (ODAR) in accordance with 47 C.F.R. §5.64(b).
3. Submit a copy of the NOAA License to Operate a Remote Sensing Space System, if required.
4. The FCC's International Bureau requires the submission of SpaceCap data to complete evaluation of your application. In accordance with the provisions of Article 9.1 and Appendix 4 of the Radio Regulations, mandatory submission of a SpaceCap file for each individual space station is required. The software and instructions may be downloaded from the ITU link <http://www.itu.int/en/ITU-R/software/Pages/spacecap.aspx>. Submit the results to my FCC email address, Douglas.Young@fcc.gov. Change the extension of the mdb file so that it makes it past our firewall.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of August 18, 2017 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
