Subject: Request for Info - STA File #1160-EX-ST-2016

---

Message:

The structure is not registered with the FCC. However, the antenna/structure is located in a FAA restricted airspace, number R-2516 (<https://skyvector.com/?ll=34.737337,-120.584312&chart=301&zoom=2>). The construction of this structure was pre-coordinated and approved by Vandenberg AFB personnel. Additionally, there are man-made structures near the antenna that are taller than the height of this antenna/structure.
