Subject: Request for Info - File # 2346-EX-ST-2019

---

Message:

The requested launch trajectory products and schedule of uplink operations were sent to NASA via secure file delivery server as attempts to attach them to the application as an exhibit were unsuccessful because the format was not supported.

For reference, approved STA 1930-EX-ST-2019 is very similar to this application, but 2346-EX-ST-2019 is for lower power and a location that is 650 feet north of the location specified in 1930-EX-ST-2019.
