

Form 442 File Number: 0292-EX-PL-2006
Form 442 Confirmation Number: EL418611
application submitted 06 June 2006
FRN 0015137151

This application is for the use of a L1/L2 GPS signal repeater in support of the Office of the Secretary of Defense's Foreign Comparative Testing (OSD FCT) Program. OSD selected the Gavia Unmanned Underwater Vehicle (UUV) as a candidate system for a Mine Countermeasures Small Unmanned Underwater Vehicle based on its potential to meet the requirements for the Very Shallow Water (VSW) Mine Countermeasures (MCM) UUV System for Reacquisition and Identification (R-I). SPAWAR Systems Center, San Diego (SSC-SD) has been tasked to perform test and evaluation services. A government contract (N66001-04-D-0025) was awarded on 28 May 2004 to procure one Gavia UUV system. If this application is approved, it will enable SSC-SD to procure one L1/L2 GPS signal repeater to test, calibrate, and configure the Gavia UUV's navigation system indoors.
