I have attached to our application the datasheet for the GSG-54 8-channel GPS signal generator, which has an optional antenna, for which we are requesting the experimental license. (File name: Pendulum-GSG-54_8-channel-Simulator_rev1)

I have also attached more detailed calculations as requested in correspondence reference #11924 dated 09/13/2010.

Please let me know if you require additional information. Thank you for your assistance with this application.
