Exhibit 7

SpeedNet, L.L.C.
Mount Pleasant, MI

The modulation bandwidth specified by NextNet is 5.544503 MHz for both base and CPE transmissions. The modulation and emissions meet the requirements specified in Part 21.106 and Part 74.936.

All transmissions will be limited within the boundaries of the 6 MHz-wide channels being utilized for the proposed tests, MMDS channels E3 and E4.
