Re: Spike Technologies, Inc.
File No.: 5205-EX-PL-96
Second Amendment to Application for Experimental License

Dear Mr. Caton:

Spike Technologies, Inc. ("Spike"), pursuant to the informal request of Commission staff, hereby further amends its application for experimental license in order to withdraw the nationwide test authority previously requested.

Spike has been informally advised that the Commission is willing to grant authority for two markets so that Spike's equipment can tested and utilized as outlined in its amended application (subject to prior frequency coordination). In light of this development, Spike has, at this time, chosen to conduct the testing only in the vicinity of its Nashua, New Hampshire laboratory and in Miami, Florida.

As discussed with FCC staff, the Miami experiment will be conducted in conjunction with the local wireless cable operator, National Wireless Holdings, Inc. ("National") which plans to separately file an application for experimental authority.

I hereby certify under penalty of perjury that the statements made in this application are true and correct to the best of my knowledge and belief. Spike certifies that neither it nor any party to this application or amendment is subject to denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. Section 862.

Respectfully submitted,

SPIKE TECHNOLOGIES, INC.
