Re: Spike Technologies, Inc.
Experimental Station WA2XCV
Nashua, New Hampshire

Dear Nazifa:

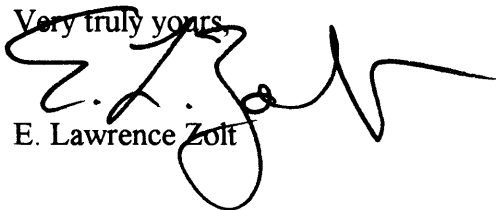

I am writing pursuant to our conversations concerning Spike Technologies, Inc.'s ("Spike") request to extend market studies authority pursuant to its above-referenced experimental authorization, through the balance of its license term (August 1, 1998).

It is my understanding from our discussions that the Commission will grant such request upon receipt of a letter from CAI Wireless Systems, Inc. ("CAI"), the holder of the Manchester-Nashua-Concord BTA (B274), indicating no objection to Spike's request.

Spike is in the process of obtaining the required letter, and we expect to file it tomorrow on Spike's behalf.

Please contact me if you have any questions, or if your understanding of the instant situation does not comport with mine as described herein.

Very truly yours,

E. Lawrence Zolt
