Doug,  
This license is no longer being pursued.

R,  
Ian

Hi, Ian -

Sorry for the delay. I was trying to track down what happened with this particular application. Thanks for your patience.

In short, IB told us that we needed to deploy future satellites under a Part 25 license, so we did not move forward with this application. It was left pending and was never granted.

George

George,

The integration and launch date info goes into our master tracker so our engineers can better prioritize the licenses. No additional documentation is required but accurate dates will greatly assist our backlogged department.

Thanks,

Ian

Hi, Ian -

Jonathan has left Spire, so the following email was forwarded to me. Can you provide some background for your request?

Thanks,

George

Jonathan,

Can you please provide the integration and launch date for your CubeSat license 0171-EX-ML-2015. Thanks for your assistance with this.

R,

Ian Cook
