Subject: Request for Info - File #0015-EX-PL-2013

Message:

There are the same issues with this application as 0647-EX-PL-2012: The requested frequency band crosses a radio astronomy band (10.68-10.7 GHz), in which we are not allowed to permit transmissions; and the bandwidth (1.49 GHz) is wider than the replacement frequency band you suggested. Correct the application to request a permissible frequency band and make sure you are using an accurate bandwidth that fits within your requested frequency band.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of February 26, 2013 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
