Subject: Request for Info - File #0092-EX-ML-2014

Message:

Mr. Young,

In response to your Request for Info dated 8/28/2014 on the matter of NTIA is objecting to the use of "various" for the receiver used. They would like to have the name of the most common one.

We cannot find where reference to "various" for receiver used anywhere in our filing or exhibits. We therefore believe this is in error.

Regards,
Anthony Cimo
