

Modification of FCC Experimental License WF2XHA

Date of modification: 3/12/2010

The purpose of this Exhibit is to modify the MAX ERP of the SRC2401 SRHawk Radar. SRC respectfully requests to the Federal Communications Commission to modify the Experimental License grant for WF2XHA to reflect changes in the system which include:

- Transmitter power output: 10 W PEP
- Effective Radiated Power (ERP): 9.3 kW

All other aspects of the Experimental License grant remain unchanged.
